# W&O POS Server App Setup

The instruction includes W&O POS Server App setup and W&O POS Tablet App setup. The “wno-pos-server-app-vx.x.x.zip” is the windows server app. And the “WnOPOS\_ST\_Server\_vx.x.x-release.apk” is the android tablet/phone app.

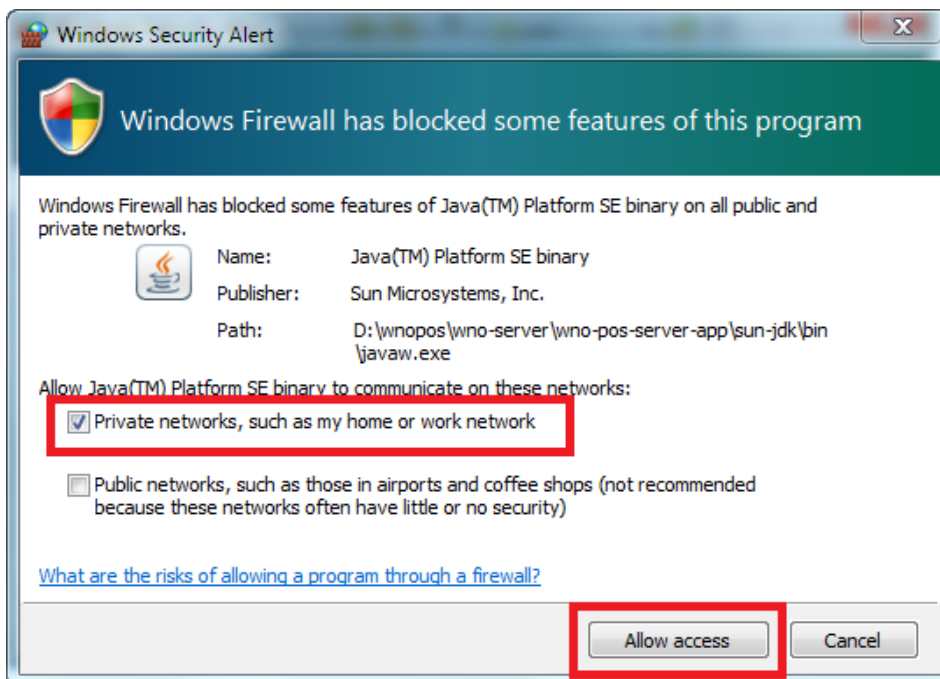

## W&O POS Server App setup

The W&O POS Server App is required to install in Windows XP or above.

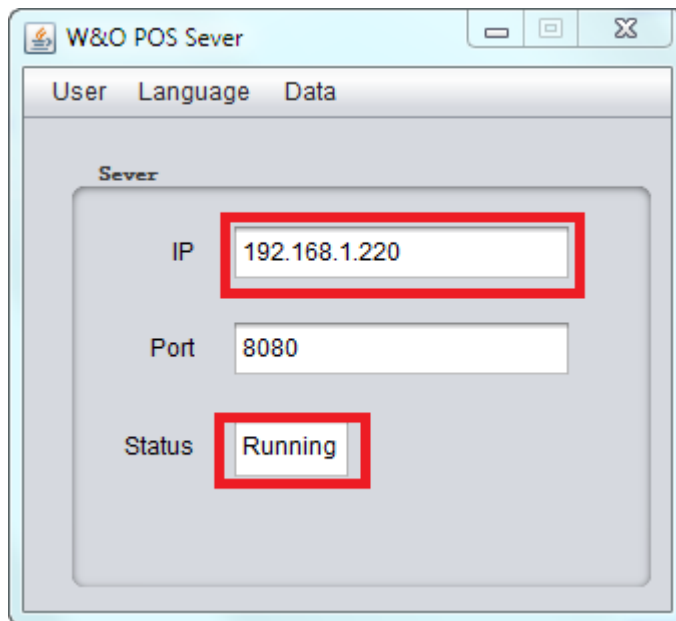

1. After download “wno-pos-server-app-vx.x.x.zip”, unzip to c:/
2. Double click “wno-pos-server-app.exe”

Name	Date modified	Type	Size
apache-tomcat	30/12/2015 17:33	File folder	
jre	30/12/2015 17:33	File folder	
lib	30/12/2015 17:33	File folder	
mysql	30/12/2015 17:34	File folder	
WnO_POS_Server_Setup_Guide.pdf	26/11/2015 9:58	Adobe Acrobat D...	181 KB
wno-pos-server-app.exe	28/12/2015 18:12	Application	106 KB

3. Allow firewall for W&O POS Server App at port 8080. This step is very important, if you don't see the popup screen, it is better to restart the app again.

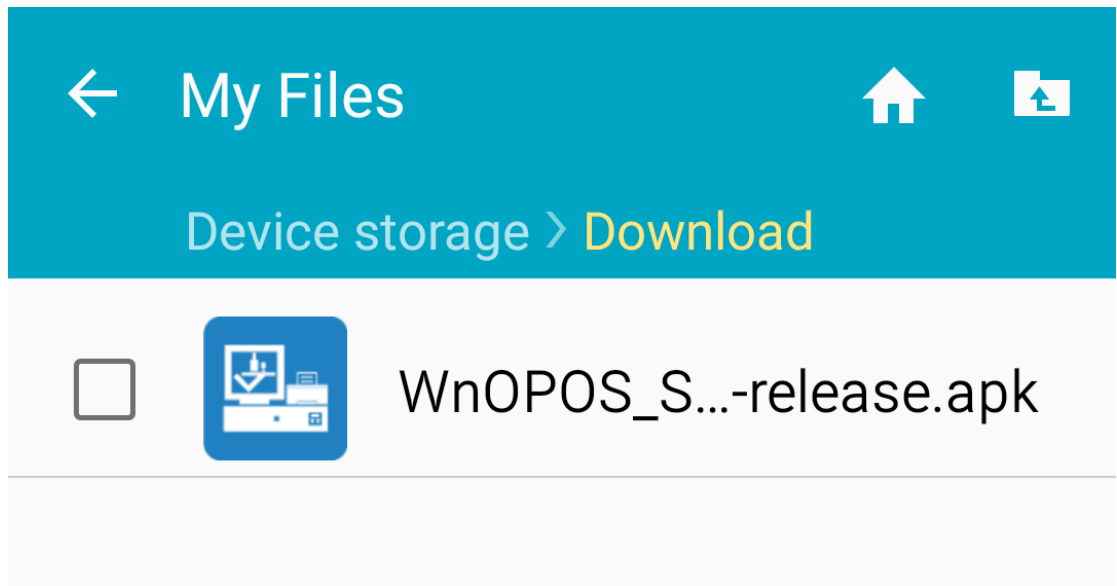

4. In W&O POS Server console, make sure the status is running. The IP will be used at server setting in the W&O POS Tablet App. If the status is not running, restart it again.

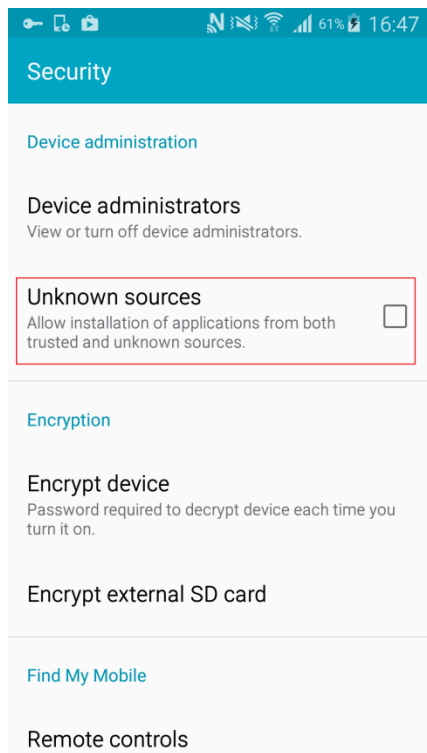

## W&O POS Android App Setup

The W&O POS Android App is required to install in tablet or phone with android version 4 or above. If you first time run the app, it requires internet connection for registration.

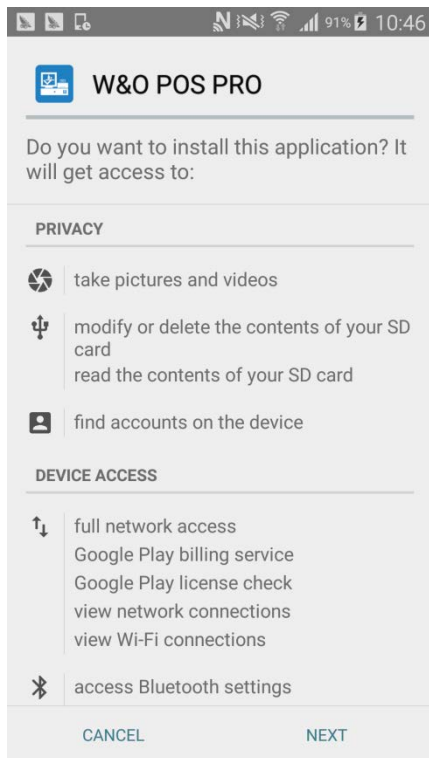

1. Download the W&O POS android apk file
2. After the download, go to sd card folder and install the apk file.

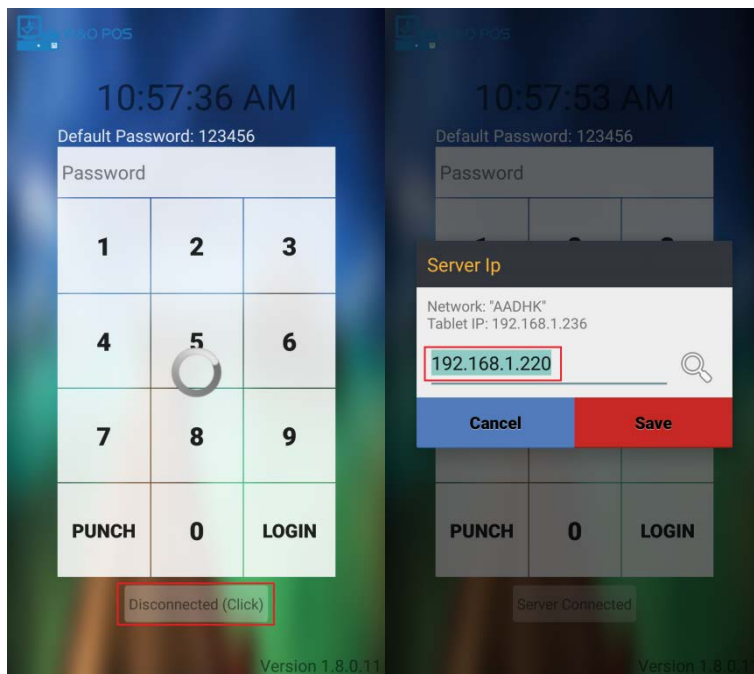

3. If the installation is blocked, you need to set the security to allow install the apk file.

- Before start installation, it will ask for confirm installation, then just click Next.

- After the installation, Click the W&O POS icon to run. The app will ask for the server IP which is from W&O POS Server App. Remember the server app must run first.

- After input correct server IP, you can login with default account "manager" and password "123456".

## W&O POS Android App Printer Setup

W&O POS App supports different kinds of printer connections. You can choose one of connection which is most suitable for your need. I will suggest you to use W&O POS printer adapter which is the most stable and supports all kind of printers. The server version includes W&O POS printer adapter, you don't need to install again. For more detail, you can download printer\_setup\_guide.pdf ([http://www.wnopus.com/doc/Printer\\_Setup\\_Guide.pdf](http://www.wnopus.com/doc/Printer_Setup_Guide.pdf)).

You are ready to take order and print receipt.

If you follow the above steps still having problem, please email me (support@wnopus.com).

## How to Purchase and Register W&O POS App

After the installation and setup, you will have 15 days of trying period. Please purchase the W&O POS app before the expiration. We only accept PayPal payment. After the payment, email us with the serial id in the app on your all android devices. We will send you activation codes.

The screenshot shows the 'Settings' screen of the W&O POS app. At the top, there is a 'Login' section with a checkbox for 'Do not remember password'. Below this is the 'App Registration' section, which contains a form for entering registration information. The form includes a 'Serial ID' field with the value '70486374' (highlighted with a red box), and fields for 'Key', 'Name', 'Mail', 'Tel', and 'Website'. A red 'Register' button is located at the bottom of the form. Below the form, there are links for 'About' and 'Register'.

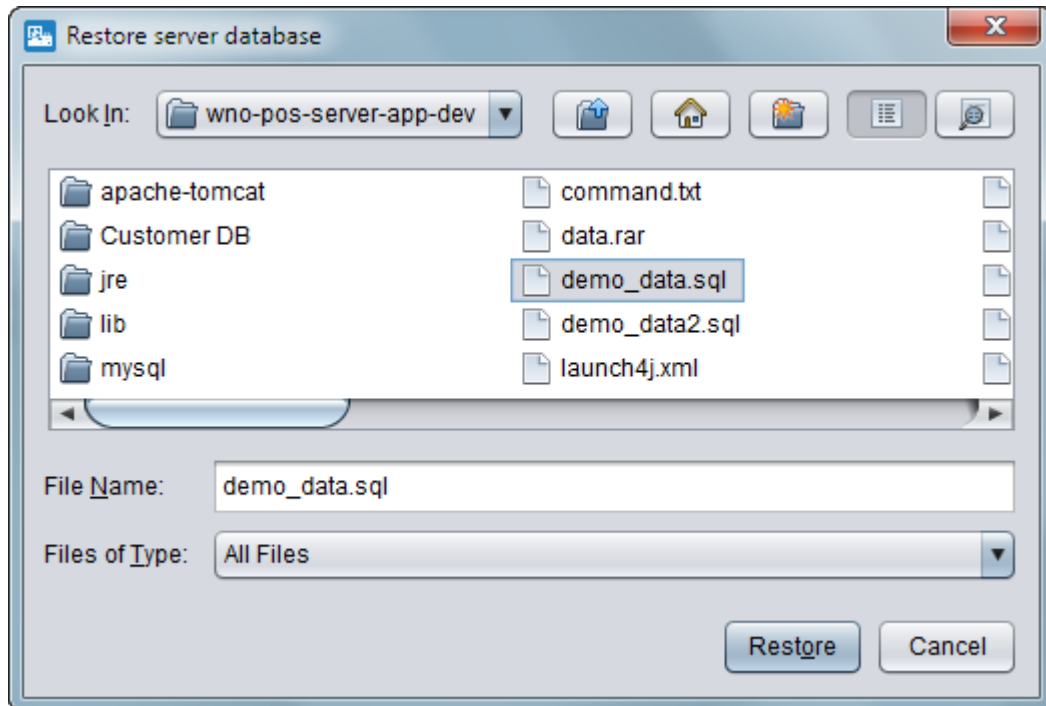

## How to Update W&O POS App

1. First you need to backup database.

2. Then download new version of wno-pos-server-app. Unzip and run the server program. Restore back the database.

3. You also may also need to update new version of W&O POS Android app. Just uninstall and install W&O POS Android app, and all the data will synchronize in the table/phone from the server.

## Problem & Solution

1. After downloaded the apk file from website, if you click on the notification to open the apk file, it will show " Can't open file".

The stand-alone version is without server, all data are saved in local device without Internet connection. It is suitable for small restaurant without complex setting. You can download/install the 15 days trial full version.

[Download Tablet Apk](#)

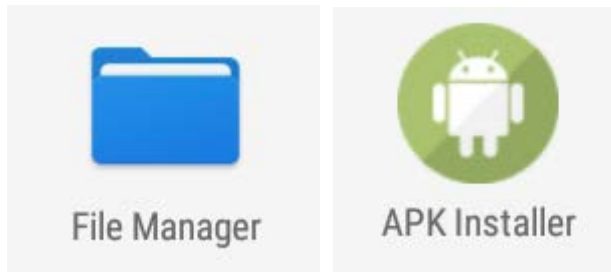

Or you can directly download and purchase in Google Play.

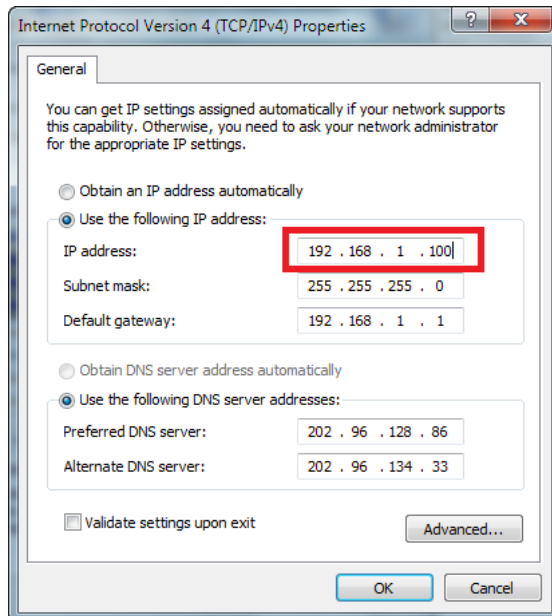

The local server version supports multiple tablets taking orders at same time, all data are saved in

You should use any File Manager or Apk Installer to install apk file.

2. Sometimes, your router may assign different IP to computer when you restart router or computer. In that case, you need to assign local static IP to your computer. Here is sample of how to assign static IP.

End
